

Mil-Spec Sockets: Amphenol Pcd-TE Relays Cross Reference

Amphenol Pcd Relay Sockets kitted and sold with TE Connectivity Mid-Range Relays Meets Mil-Spec QPL.

Amphenol Pcd QPL Relay Sockets

Amphenol Pcd's Relay Sockets are qualified to MIL-PRF-12883 specifications and have an amp range between 2 and 25. Offered in various types and configurations, they feature state of the art ultrasonically bonded interfaces between the dielectric components, eliminating air paths and providing protection against moisture and degradation. Our Quick Mount Relay Sockets snap into standard aircraft panel cutouts eliminating the need of mounting hardware. This simplifies installation and dramatically reduces weight and installation time. They meet the performance of MIL-PRF-12883 and are compatible with MIL-SPEC approved relays.

TE Connectivity Mid-Range Relays

TE CII brand Mid-range relays offer critical size and weight savings in aircraft applications by providing efficient power switching in a compact package. Relays vary in size from the compact 5 amp package all the way up to a 50 amp version in a 1 inch cube enclosure. A variety of coil options are available which allow the AC or DC control. Terminal styles include socket pins, solder pins, and solder hooks. Each series comes with a variety of mounting options. Relays are qualified to MIL-PRF-6106 and MIL-PRF-83536.
